# Manwell's Descriptive Circular and Price List for 1896.

**THE MANWELL.**

$\frac{3}{4}$  SIZE.

**Warfield.** (P) It is not immensely large, but its great beauty, firmness, earliness, good flavor, productiveness and vigor, combined with good size, make it exceedingly popular. Ripens with Crescent, and is superceding that variety for a reliable market berry. Per dozen 25c; 50, 50c; 100, \$1.00.

**Beder Wood.** This is generally conceded to be one of the best early berries for home use or a near market. It is a splendid grower, making a number of strong runners. It has a perfect blossom and is immensely firm. Fruit of good size, round, light red of medium firmness and good flavor. One of the best to plant with early blooming pistillate varieties. Per dozen, 50, 50c; 100, \$1.00.

## GRAPES.

**Concord.** The most popular market variety. 2 years old, \$1.75 per dozen; 100, \$8.00.

**Worden.** A splendid large grape of the Concord type, but earlier, larger in bunch and berry, and of decidedly better quality. Vine hardier than that of Concord and every way as healthy. A very popular sort, planted largely for market. Next to Concord in number used. 2 years old, \$2.00 per dozen; 100, \$10.00.

**Moore's Diamond.** Best white grape. 1 year old 35 cents each; \$3.00 per dozen.

## RASPBERRIES.

**Cuthbert or Queen of the Market.** A remarkably strong, hardy variety. Stands the northern winds and southern summers equal to any. Berry very large, measuring three inches around; conical, rich crimson, very hard, does not bruise, and so firm it can be shipped hundreds of miles by rail in good condition. Flavor is sweet, rich and luscious. The leading market variety for all climates. Per dozen, 100 \$2.00.

**Olden.** Older is not an early berry compared with other sorts, but the bulk of its crop about with the Ohio. The berries are large, approach very nearly to Gregg in size. The quality is sweet and rich and bears an immense crop. It is a profitable market sort to follow an early variety, and it is valuable for sections subject to extremes of cold and drought, by reason of its hardy cane, tough foliage, and wonderful endurance in a drought. It is a highly desirable and equally satisfactory in the home garden for family use. Per dozen \$1.00; 100 \$3.50.

**Gregg.** The leading late blackcap, and a popular market sort. Per dozen \$1.00; 100 \$3.50.

## BLACKBERRIES.

**Snyder.** Perfectly hardy. Standard sort. Per dozen \$1.00; 100, \$3.00.

### Description and a Few Testimonials.

During the twelve years' experience as a grower of small fruits I have paid special attention to the culture of the strawberry. It has been said that one might have made a better berry than the strawberry but he never did. It has been my ambition to produce a strawberry that would meet the demands of the strawberry grower for a large berry that would be as perfect in shape, size, and quality as possible. I also desired to produce a plant which should be its own pollinizer, one that would yield a large amount of fruit. After several years of experimenting I have produced an ideal plant and berry which I call "Manvill."

## WHY GROWERS SHOULD PLANT IT

1. It is an Iowa berry, and will thrive on any good soil.
  2. The quality is not excelled for table use or canning.
  3. They are the best shippers we ever handled.
  4. They are a dark, glossy red color, having the appearance of being varnished.
  5. The tendency is to large berries—holding their size until last picking.
- They do not fall when being picked from the vines, and are the most attractive berry on the market.

It is a strong grower, and makes plants freely. Customers call for them in preference to all others.

Dr. Manwell has one package for the boxes of fine, large strawberries left on our table last September. The package is some of Mr. Manwell's propagating, this being the fourth year of the plant and as he has been propagating this for a number of years. The feature of the strawberry is its preserving quality, the strawberry being as good as a berry when they are very old. — Vinton Foster.

Vinton Iowa August 10, 1895.

This is to certify that the above showmanries are very early and attract fine quality and will stand longer than any other straiters I ever reeled.

MASTON, Iowa, August 13, 1897

I declare that I think the Man

To all whom this may concern: I hereby certify that I think the Natwell Charberry, grown by A. D. Natwell of Vinton, Iowa, for beauty and shipping value can fairly be compared, and is of the same quality as an equal.

E. HOWELL

Virol. Journ. 2, 1935.

It may be this may come in. The top of his hat which tried the Man-  
well and consider it not only the finest looking material in the box, but its  
solidness makes it a true shoe. And its dark, polished, smooth, black, boots,

The 1960s were supposed to be the decade of the "love-in," but it was the 1970s that saw its most famous expression in the form of the "hippie" movement. The hippies were a group of people who rejected the mainstream values of the time and sought a more spiritual and communal way of life. They were often associated with the use of drugs, particularly marijuana and LSD, and with a style of dress that was simple and natural. The hippie movement was a response to the social and political changes of the time, and it played a significant role in shaping the culture of the 1970s.

My dear Mr. Brewster,  
I have just received your letter of the 11th inst. and am  
glad to hear that you are interested in the life of the  
American robin. I have a box of  
choice specimens of the robin of the season. They were of his  
nesting period, and are all of the same age. The birds were large and  
strong, and all the qualities in both male and female. I  
will be glad to send you a pair of the most perfect of the  
nesting season. We have in our collection a pair of the same  
species, and I would be glad to send you a pair of the same  
species, and I would be glad to send you a pair of the same  
species.

Manuelli's Strawberry Collection, 1, 2, and 3, should be ordered as "Strawberry Order Sheet". This covers the strawberry season from early to late.

ALLEN D. MANWELL, Vinton, Iowa
